Institute of Computer Technology B. Tech. Computer Science and Engineering

Sub: FET (2CSE410) Practical - 8 (Promises)

Objective: To understand the usage of promises in EcmaScript.

Exercise :

My friend Kayo promises to make a cake for my birthday in two weeks. If everything goes well and Kayo doesn't get sick, we'll have a certain number of cakes. Otherwise, if Kayo gets sick, we'll have no cakes. Either way, we're still going to have a party. For this first task, we'll translate this story into code using Promise concept of EcmaScript.

HTML :

```
<!DOCTYPE html>
<html lang="en">
